Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 and 13-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Soloy (4531694) in view of Heidrich et al (4568289).

See figure 1-3 and abstract of Soloy. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the gear box 32 of Soloy with the gearing of figure 12-13 of Heidrich et al since it is a mere substitution of equivalent drives for a turbo drive.

4. Claims 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Scott (6575402) and further in view of Soloy and Heidrich et al as applied in paragraph above.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the turbo drive of the above combination for that of Scott since it will reduce gear wear.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
